

# EXPLOSION PROOF WORK LIGHTS

## Portable Explosion Proof Light with Articulating Clamp and 20A Plug

The BODYLight™ is the 1st Explosion Proof Rechargeable Battery-Powered LED Light in the World to be ETL certified by an OSHA approved Nationally Recognized Testing Laboratory (NRTL) Intertek. It boasts ~3.5hrs runtime with 2,500± lumens on High (task specific mode). This LED work light is more than just a flashlight, it is built for industrial services. The BODYLight™ is machined from solid blocks of 6061-T6 Aluminum for durability. They are also polyurethane wrapped with protective bumpers and glow-in-the-dark paneling for added safety.

## Portable Explosion Proof Light with High Profile/Long Handle and 15A Plug

Portable Explosion Proof LED Work Light, the ultimate portable explosion proof light designed for small or confined spaces, wet locations and hazardous environments. Like its bigger brother the BRICK®, the BRICKette™ packs a level of versatility and durability like no other light. Designed to meet the needs in a variety of applications & industries such as aerospace, oil & gas, inspection, paint & blast, confined spaces and so much more. Part of the KICK-IT TOUGH™ LED Safety Lights from Western Technology, Inc.

## Protective Bags to Protect Light from Overspray
